Germany · remote-friendly

SUMMARY

I build reliable software by combining enterprise quality engineering with modern full-stack delivery — automation, test data, environments, and maintainability designed in from day one.

SKILLS

Languages	TypeScript, JavaScript, Python, Java	Frontend	React, Next.js, Tailwind CSS, shadcn/ui
Backend	Node.js, Next.js, Prisma, PostgreSQL, REST APIs, JWT Auth	Testing & Quality	Playwright, Selenium, Vitest, API Testing, E2E Testing, Test Strategy, Test Data Management, Test Environment Management
Cloud & DevOps	AWS, GitHub Actions, Docker, Cloudflare, Neon, Vercel, Stripe		

EXPERIENCE

Test Manager · Test Data Manager · Test Environment Manager · Swiss Life

Multi-year

Enterprise CRM & Digital Platforms

- Lead enterprise test management, quality engineering, and risk-based test strategy across CRM and digital platforms.
- Drive Playwright automation, API testing, and integration testing as part of release readiness.
- Own test data management and coordinate test environments across multiple Scrum teams.
- Support AWS cloud transformation with product, engineering, and architecture stakeholders.

Independent Software Engineer · Freelance / Projects

Ongoing

Web products & SaaS

- Own end-to-end delivery: architecture, frontend/backend, auth, databases, payments, and deployment.
- Ship production products such as NavisSedes (ticketing) and Seatly (reservations) with Next.js and Prisma.
- Build automated testing and CI/CD into delivery from day one.

PROJECTS

NavisSedes

Event ticketing for churches and cultural orgs — seating, Stripe, QR tickets, admin, and check-in.

Next.js · TypeScript · Prisma · PostgreSQL · Neon · Stripe · Playwright · Vitest · Cloudflare

Playwright Automation Suite

Enterprise-inspired Playwright framework — POM, reporting, parallel runs, CI-ready.

Playwright · TypeScript · POM · CI

Seatly

Restaurant reservations with auth, search, booking persistence, and automated testing.

Next.js · TypeScript · Prisma · Neon · JWT · Playwright

Elikuren

Choir website with secure member platform, media library, and administration.

Next.js · React · TypeScript · Tailwind

APPROACH

Software engineering with quality built in — not added later. Architecture, automation, CI/CD, and maintainability are part of delivery from the first commit.
